Provides the sharpest most vivid display image in the industry

Your Hardware Solution

Let us design the perfect hardware solution for your business!

faytech has experience developing hardware for touch displays since 2006, and has worked with software-developing partners since that time.

All of faytech's displays meet European health, safety, and environmental protection standards. They are CCC compliant and meet FCC standards.

faytech can provide the hardware for your business. The various software shown in this presentation are concepts, and can be developed by one of our many trusted software partners.
